

**Booth 301**

NRG Energy is a Fortune 250 wholesale power Generation Company headquartered in Princeton, NJ. We own and operate one of the industry's most diverse portfolios, including nuclear, wind, and solar power.

Our diverse power generating facilities have a capacity of about 53,000 megawatts, capable of supporting almost 42 million homes. Our retail electricity providers — Reliant and Energy Plus — and thermal energy division serve nearly 3 million residential, business, commercial and industrial customers in 47 states.

We built the nation's first privately-funded electric vehicle charging infrastructure and continue to create new, clean energy solutions for our customers. NRG is at the forefront of changing how people think about and use energy. Whether as the largest solar power developer in the country or by giving customers the latest tools to better manage their energy use, NRG is a pioneer in developing smarter energy choices.
