

Don Hill is CB&I's Senior Vice President, Strategy & Initiatives. In this role, his focus is identifying and developing strategic business opportunities, while leading special projects and initiatives for Engineering & Construction.

Don joined CB&I in 2006 and led CB&I's global LNG team as a SVP of LNG Operations, providing support for CB&I's LNG projects including base-load liquefaction, floating liquefaction, regasification terminals, and peak shaving facilities until being assigned to lead Strategy and Initiatives in 2017.

Prior to joining CB&I, Don worked nearly 30 years at KBR and was involved in practically all of their LNG projects. As KBR's Director of LNG, GTL, & Gas Processing Technology, he led the technology team responsible for the application and development of LNG and Gas Processing technologies.

Don has extensive background and experience in the LNG and gas processing industries, including all phases of plant design, engineering, start-up, and testing. In his various roles he has lived and worked in the Middle East, Japan, Australia, Southeast Asia, Europe, Africa, Peru, and the USA.

Don has a Bachelor's and a Master's degree in Chemical Engineering from Rice University, and holds three patents for cryogenic processes. He has co-authored papers on topics such as LNG technology, liquefaction design, cost optimization, and plant reliability, and has been a frequent presenter, panel member, and chair at LNG and Gas conferences. A former member of the Rice University Engineering Alumni Board of Directors, Don also serves as an Adjunct Professor at Rice University's Jones Graduate School of Business.
